

EOI for **VIDEO**

DOCUMENTATION

Last Date to Apply

12 th December 2024

Vasundhara is an action research organization dedicated to Natural Resources Governance, Conservation, and Sustainable Livelihoods. We work towards empowering communities, promoting environmental sustainability, and ensuring equitable management of natural resources.

We are seeking a talented team or individual to create high-quality video documentation that captures the processing and value addition of **Minor Forest Produce (MFP)**. This project offers a unique opportunity to highlight the positive impact of MFPs on local communities and the environment. The documentation will cover 10 different MFPs, showcasing the entire process from harvesting to value addition.

Interested candidates or teams should share their profile, details of past work, and the proposed budget for taking up this assignment.
